

Elevator construction

Cable and CONNECTivity

Upwards with TKD: The right cable solution for every shaft.

Smart networking, data-driven analyses and new comfort functions - everything that has long been moving the industry since the advent of the Internet of Things and Industry 4.0 does not stop at lifts. Long gone are the days when every switch in the cabin had to be individually wired to a relay in the control cabinet. Modern BUS systems have become essential in lifts as well.

State-of-the-art are infotainment functions, analysis options for error detection or predictive maintenance and smart solutions that offer versatile possibilities for use, such as control via app. In safety-critical areas, access control systems and video surveillance are also required. Emergency call systems are no longer a purely acoustic matter, but modern video communication systems.

We have the know-how and broad portfolio to always offer the right solution.

TKD Product Overview

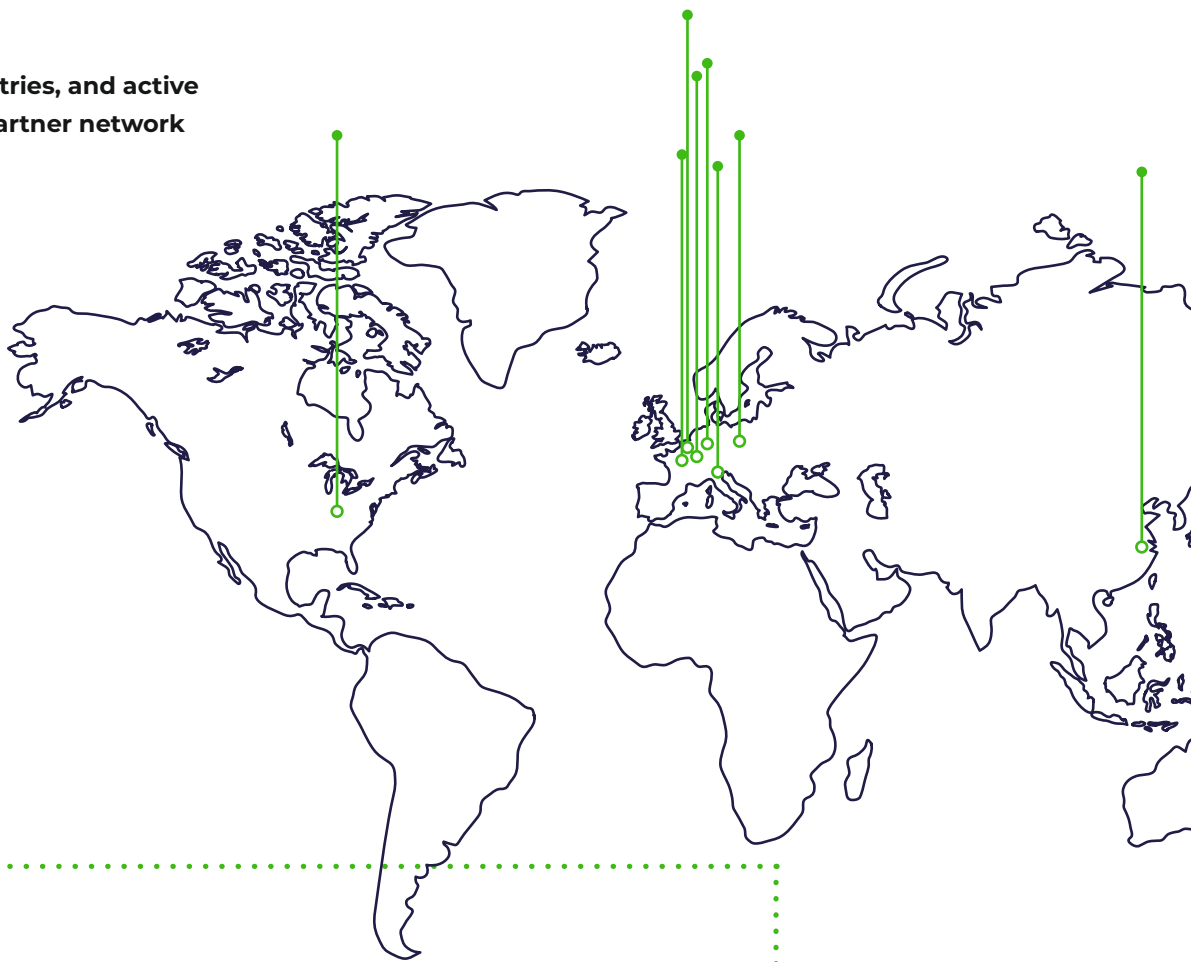

TKD is the distributor of Infinite Electronics, specialized in all types of cables. TKD has decades of experience in design and application technology, combined with a strong awareness of quality and environment. This gives our customers the security of receiving innovative and high-quality products, even for the most demanding requirements.

Footprint in 8 countries, and active globally with our partner network

Own branches in:

- Germany
- Belgium
- Netherlands
- Poland
- Italy
- France
- China
- USA

Globally active

Welcome to the product portfolio of TKD Kabel GmbH. We are one of the world's leading suppliers of cables, ready-to-connect cable systems and cable accessories.

Since 2023 we are part of Infinite Electronics, and since then a progressive and international player in the specialty cable and connectivity solutions market.

Infinite Electronics was formed from the merger of several successful companies in the cable and connectivity industry. The group of companies produces, distributes and assembles special cables as well as cable harnesses and accessories.

Distribution

knowledge company with added value in cables and accessories for wholesale and OEM customers with branches in the Netherlands, Belgium, Germany, Italy, Poland, France, China and the USA.

Assembly

customer-specific assembly of connectivity solutions for OEM customers with own locations in the Netherlands, Poland and Germany.

Production

the production of a wide range of special cables.

“

Around the world, our team members work urgently to provide connectivity solutions and support, giving our customers what they need, when they need it.

Traveling cable selection guide

In the field of Traveling cables we offer a wide standard portfolio. In addition to our standard products, we will be happy to develop special Traveling cables together with you to suit your application.

Traveling cables										
traveling cable - type	construction	type			shielding		supporting element	halogen-free	suspension height, m	speed, m/s
		Control cable	Data cable	Hybrid cable	Element shield	Total shield

LIFTTEC®

Our **LIFTTEC® series** is particularly durable, suitable for mechanical stress and thus ideal for use in elevator applications. It is used to supply elevator applications with power, control pulses and data transmission and to meet the modern requirements of the IIoT, such as smart networking, convenience and data-driven analysis. Our portfolio includes elevator control cables and data cables, as round or flat cables, with or without supporting elements.

LIFTTEC® Highlights

LIFTTEC® KYSTY-MR

high-flexible lift control cable with supporting element for medium mechanical stress. Suitable for dry and humid rooms.

LIFTTEC® CAT.7 – H

data cable for communication with a personal computer in the elevator car or for networking purposes according to CAT.7 specifications. Suitable in dry and humid rooms.

LIFTTEC® FLGÖU

power and control cable in lift and conveyor facilities, machine-tools and construction machines, hoisting devices, dockyards and especially for teach pads as well as all weatherproofed machinery and facilities. Suitable for dry, humid and wet rooms also outdoor.

LIFTTEC® STCN (EMC)

lift cable, for trailing cable installation, drag chains and as control cable in conveyor facilities, machine-tools or as measure and signal transmission cable. Suitable for dry, humid and wet rooms and outdoor use.

LIFTTEC® lift components/ suspension sets LAR X, LAF 50, LAF 75 and LAF 90.

Cable suspension sets for wall and cabin mounting including mounting screws and mounting plates.

LAR X

Plastic suspension for 1-2 round cables
with external \varnothing 6.0 – 26.0 mm

LAF 50

Plastic suspension for 1-2 flat cables
up to max. 50.0 x 10.0 mm

LAF 75

Plastic suspension for 1-3 flat cables
up to max. 75.0 – 15.00 mm

LAF 90

Plastic suspension for 1-3 flat cables
up to max. 90.0 x 18.0 mm

Assembly of lift cables

Especially with the ever-increasing requirements, the assembly should not become an additional problem. We can provide you with a ready-to-install plug-and-play solution for many cables. This saves you time and effort in the shaft and you can concentrate on your own core competence.

Our product groups for elevator construction.

Whether network cables or bus cables, NYM cables for the safety circuits, motor connection cables, hybrid – Power&Data, cables for brakes, single-core wiring for the control cabinet as well as ordinary control cables and sensor-actuator wiring: TKD standard portfolio covers all requirements for today's lift systems.

Whether it is a question of passenger elevators or freight elevators, some of which have particularly high requirements in terms of resistance or load-bearing capacity, or load-bearing capacity. We offer various designs of elevator control cables, which differ depending on the application.

Our cables are thus an important component in elevator applications and contribute to a safe and reliable power and data supply. Should you ever reach your limits with our standard range, we are just as happy to support you in the development of a protected, customer-specific special cable for your own control system.

--------------------------------	----------------------------------

Telecommunication cables

J-Y(ST)Y Lg	VDE0815, 300V, shielded, CPR Eca
J-H(ST)H Bd	VDE0815, 300V, shielded, halogen-free, different CPR versions available

BUS, LAN, coaxial & video cables

PROFIBUS DP / FMS / FIP 150 Ohm & PROFIBUS PA 100 Ohm

PROFIBUS DP / FMS / FIP 150 Ohm

for fixed installation & limited flexible applications, UL/CSA, different CPR versions available

MULTIBUS & INTERBUS 100 - 120 Ohm

for fixed installation & limited flexible applications, UL/CSA,

MULTIBUS & INTERBUS 100 - 120 Ohm - HF

for high flexible applications (drag chain) UL/CSA

CAN BUS - ControllerAreaNetwork 120 Ohm

FLAME-JZ/OZ-H FRNC - Dca

for fixed installation & limited flexible applications, UL/CSA,

FLAME-JZ/OZ-CH FRNC - Dca

for high flexible applications (drag chain) UL/CSA

LAN | ETHERNET-Technology - for structured building cabling

LAN Cat.7 - 600, Cat.7A - 1000 & Cat.7e -1200..1500

for fixed installation & patch applications, different CPR versions available

Control and data cables – high flexible – for use in drag chains & robotic applications

KAWEFLEX® Control cables for use in drag chains

KAWEFLEX® 6310 SK-PVC UL/CSA

for normal requirements, DIN47100, 300V, unshielded, UL/CSA

KAWEFLEX® 6330 SK-PUR UL/CSA

for high requirements, DIN47100, 300V, unshielded, halogen-free, UL/CSA

Servo-drives, measurement & system cables - flexible & high flexible - for use in drag chains and robot applications

KAWEFLEX® SERVO 2YSL(St)CY... & 2YSL(St)CYK... 0,6/1 kV EMC

0,6/1kV, EMC optimized, double shielded, K: UV-resistant

KAWEFLEX® SERVO 2XSL(St)CY... & 2XSL(St)CYK... 0,6/1 kV EMC

0,6/1kV, EMC optimized, double shielded, K: cold flexible UV-resistant

KAWEFLEX® SERVO 2XSL(St)CHK... FRNC 0,6/1kV EMC

0,6/1kV, EMC optimized, double shielded, halogen-free, K: cold flexible, UV-resistant, CPR Cca

KAWEFLEX® 5er Series - Cables for servo-drives 0,6/1kV

for drag chain applications

KAWEFLEX® 5268 SK-C-PVC SERVO 0,6/1kV

0,6/1kV, unshielded, UL/CSA, n..MC500

KAWEFLEX® 5288 SK-C-PUR UL/CSA SERVO 0,6/1kV

for high requirements, 0,6/1kV, shielded, UL/CSA , n..MC800 PLUS

TKD CONNECTivity

Cable assembly, spiral cable, ready for connection cable and energy drag chain system

Cabling systems are the decisive basis for reliable operational processes – whether in mechanical engineering, automation technology, telecommunications or the chemical industry; whether in tank installations, in the audio, video and broadcasting sector or in security technology. Pre-assembled and ready-to-connect cable solutions from TKD help you to complete projects much more quickly and cost-effectively

With our innovative solution concepts divided into 4 areas **STANDARD**, **INDIVIDUAL**, **SERVICES** and **ADVANCED** you are also optimally positioned for all challenges.
